

Microsoft® Windows Server® 2008

MCTS: Windows Server 2008 | Active Directory | Network Infrastructure | Applications Infrastructure |

MCITP: Windows Server 2008 | Server Administrator | Enterprise Administrator |

Windows Server 2008 is generating demand all over the world for skilled IT professionals who can support this new Windows Server operating system. IDC, a global analyst firm, estimates that there will be more than 3.5 million deployments of Windows Server 2008 in its first year (IDC, 2007). Make sure that hiring managers and project leads notice you—with a Microsoft Certification. Combined with hands-on experience, certification is an excellent way to demonstrate your understanding of new features—new Web tools, virtualization technologies, security enhancements, and management utilities—and inspire confidence in your readiness to evaluate, design, maintain, and troubleshoot Windows Server 2008.
